Summary

I've been a tinkerer, builder and maker since a very young age, specifically with computers, embedded controllers, and the software that runs them. Working with the idea that programming is as much an art form as a science, I entered into the domain of web development as a Full-Stack Developer primarily utilizing the MEAN Stack.

I aim to continue my career with software engineering, exploring new ways to apply the latest technologies.

Projects

All Your Base

A crossover of a sidescroller shooter and endless runner inspired by games like Zero Wing, Amplitude and Earthworm Jim.

Technologies used: JavaScript, PhaserJS, HTML5, CSS3/Sass & Bootstrap, Tiled Editor, Photoshop

Bag O' Memes

A fun space to discover, save and share GIFs and memes without opening dozens of browser tabs.

Technologies used: Reddit, Giphy, Facebook and Google APIs, Node.js, MongoDB, Express, jQuery, Semantic-UI, Mongoose, Heroku

buildershare.co

A place to list and reserve creative spaces for Builders, DIY Enthusiasts, and Artists

Technologies used: Angular2, Node.js, MongoDB, Express, jQuery, Semantic-UI, Mongoose, Heroku

Experience

Ironhack / Full Stack Web Developer (Student)

MAY 2017 - JULY 2017 | Miami, Florida

- » Ironhack is an immersive bootcamp with locations in Madrid, Barcelona, and Miami, offering 9-week courses in Full Stack Web Development. (400+ hours)

- » Good development practices: Focused on clean code principles, design patterns and test driven development (TDD).

Lyft / Partner Driver

JULY 2013 - FEBRUARY 2016 | Miami, Fort Lauderdale and West Palm Beach areas

- » Self-Starter; created own schedule and planned routes and work areas based on anticipated demand and events.

- » Adapted to a rapidly changing and unpredictable environment with little to no support or supervision.

Mobile Device & Computer Repair Technician / Self-Employed

MARCH 2017 - PRESENT | Greater Quimper Peninsula Area, Washington

- » Diagnosed and repaired mobile devices, desktop and laptop computers with equal emphasis on rapid delivery as well as quality.

- » Constant education and research on new devices and hardware as they were released to be able to service and repair them accurately and knowledgeably.

Education

Ironhack / Full Stack Web Development Cohort

MAY 2017 - JULY 2017 | Miami, Florida

Full-Time Full-Stack (MEAN) Web Development(400+ Hours)

Digital Media Arts College / Computer Animation and Graphics Design

FEBRUARY 2007 | Boca Raton, Florida

Industry standard tools and techniques in animation, modelling, and design. Anatomical illustration, photoshop certification and color principles.
